

Permeability Testing Machine

KEC-904

- ✓ Excellent accuracy
- ✓ Superb quality
- ✓ Correct reading

➤ Features: Permeability meter is for quick and precise measurement of permeability of green sand mold, dry sand mold, and other sand molds following the standard set by the molding sand research committee of Japan Foundrymen's Society (NIK).

Model	KEC - 904
Water Column	100mm water volume
Test Specimen	50mm(D) x 50mm (H) ± 1mm
Air Volume	Max 2000 cm ³
Weight	24 kg
Dimension	460 x 340 x 700mm(LxWxH)
Power	AC 220V x 1ph
Accessories	A. Orifice x 1 B. Test piece cylinder x 1
Option	Dry sand permeability specimen cylinder x 1
